

Mad Science Chicago Is Hiring!
Afterschool Science Instructor

Part Time – Non-traditional Schedule

You are:

- Flexible, creative, engaging and have excellent verbal communication skills.
- You love children, science, teaching and/or acting.
- You own a car.
- You often say things like, "I got that." "I have an idea." "Let me take the lead on that." and "I handled that. What next?"
- You thrive in environments where you get a lot of support but function with a great deal of autonomy.
- You are excited by non-traditional work schedules because you love the gig economy!
- You aren't afraid to try new things and you love variety.

We are:

- A team of STEM-loving folks who spend our days transforming laboratory science into fun, interactive learning experiences for youth from Pre-K to 6th grade.
- We believe in working smart and having a good time.
- We all wear many hats and we work collaboratively to get things done and ensure that our students and their families are thrilled by their learning experience.

The Job:

Is different. We know it. We hope that's exciting to you!

You can work anywhere from 1 day to 5 days a week teaching a one-hour science lesson during afterschool hours.

What will you do?

- You will drive (in the car you own) to a school or park district
- You will lead a one-hour exciting, immersive and interactive science lesson (after a lot of paid training so that you feel totally comfortable in all ways)

Pay:

16 hours of training at \$10/hour
Instructing \$25-\$35/class

Sneak Peak:

Here's a little video that gives you a taste of what our trainings are like.
